Experience

Santiago, Chile Jul 2022 - Present	● Senior A KPMG Chile In charge of the development, and production deployment of Data Science solutions, acting as a strategic liaison between leadership and the technical team to translate business requirements into scalable data products. Directed the end-to-end delivery of high-impact operational models, notably: 1) A multilevel regression model optimizing audit resource utilization based on historical demand; 2) An automated accounting anomaly detection system leveraging Benford’s Law and OCR for unstructured document processing; and 3) A staff turnover predictive model generating staffing risk alerts (attrition, medical leaves, and PTO), architecting the full pipeline from SQL extraction to automated refresh and deployment on Power BI Report Server.
Santiago, Chile Feb 2022 - Jun 2022	● Senior B KPMG Chile Drove the development and continuous improvement of planning solutions across the firm using the Microsoft Power Platform, with an emphasis on Power BI and Power Apps. Generated predictive analytics and operational forecasts that directly informed leadership decisions regarding budgeting, capacity planning, and workforce management.
Santiago, Chile Feb 2020 - Feb 2022	● Staff A - Semi Senior B KPMG Chile Executed and subsequently supervised substantive audit testing on financial records utilizing data analytics software, primarily CaseWare IDEA, followed by comprehensive audit reporting. Supported the planning department by designing and tracking key performance indicators (KPIs) to enhance operational oversight.
Santiago, Chile Dec 2018 - Mar 2019	● Audit Intern KPMG Chile Performed substantive audit procedures across diverse client accounts, integrating computer-assisted data analytics with on-site fieldwork, including physical inventory counts and cash reconciliations. Formally recognized by leadership for high performance and valued by colleagues for continuous cross-functional support and dedication.

Education

Santiago, Chile Mar 2025 - Jun 2027	● M.Sc. in Statistics Candidate - Thesis: Bayesian Neural Networks for applications in Pharmacokinetics/Pharmacodynamics Pontificia Universidad Católica de Chile
Santiago, Chile Apr 2024 - Aug 2024	● Diplomado de Postítulo - Ingeniería de Software - Completed (6,4/7,0) Universidad de Chile
Santiago, Chile Mar 2022 - Nov 2022	● Diplomado en Big Data y Machine Learning - Completed (6,9/7,0) Pontificia Universidad Católica de Chile
Santiago, Chile Mar 2021 - Dec 2021	● Diplomado en Auditoría a la Ciberseguridad - Completed (6,4/7,0) Universidad de Santiago de Chile
Santiago, Chile Mar 2014 - Nov 2020	● Contador Auditor - Licenciado en Contabilidad y Auditoría - Completed (5,0/7,0) Universidad de Chile

Skills					Languages English Advanced (C2 Proficient - EF SET 77/100) German Basic
